

Entertainment Area Evaluation Form

--

Licensee _____ Review Period _____

Instructions:

1. Perform an observation of the entire property to identify the areas/venues that charge or have charged an Admission.* The information noted on this form should include all activities that occurred since the prior entertainment area evaluation was performed. Date of last evaluation: _____
2. Conduct interviews with persons in the area/venue, marketing, food and beverage, and accounting/compliance to complete the "Fact Sheet" and the "Other Potential Entertainment Areas" form. This step will require the auditor to interview the area/venue personnel during the times those areas are open, and/or, when entertainment is offered. Documentation is not limited to activities occurring during the observation, but should include all activities that occur within the area/venue. Do not include areas where admission charges are highly unlikely (e.g., fast food restaurants, gift shops, food court)
3. The **Entertainment Area Evaluation - Fact Sheet** is to be completed for each area/venue which charges an admission and potentially provides an activity that meets the definition of live entertainment, an activity that qualifies as an exclusion of live entertainment, or an activity that is exempt from live entertainment. If the live entertainment activity qualifies for an exclusion from live entertainment or is exempt from live entertainment, document the rationale, including statutory reference, for each conclusion of taxability.

Indicate each area/venue and if an admission charge was imposed. For **all venues imposing an admission charge**, complete a Fact Sheet for each area/venue. For all areas/venues **not** imposing an admission charge, list the venue on the "Other Potential Entertainment Areas" form and document the required information regarding verification that admission charges are not collected.

	<u>Area/Venue</u>	Admissions *
